US mainland. The US responded with a naval blockade of Cuba and threatened military action. Both superpowers were prepared to use nuclear weapons if necessary, placing the world on the brink of nuclear annihilation. 3. What were the longterm effects of the Berlin Wall? The wall served as a physical and symbolic barrier between East and West Berlin, representing the division of Germany and Europe. It symbolized Soviet oppression and became a focal point of Cold War tensions. The wall's dismantling in 1989 marked a significant step towards the end of the Cold War and the reunification of Germany. 4. How did the Space Race impact society? The Space Race spurred significant technological advancements in areas like rocketry, space exploration, and computer technology. It also inspired a generation of scientists and engineers, driving innovation and scientific progress. Furthermore, the race had a profound impact on public perception of science and technology. 5. What were the limitations of *détente*? While *détente* helped to ease tensions and reduce the risk of nuclear war, it did not eliminate Cold War rivalry. The Vietnam War escalated during this period, demonstrating the continued conflict over ideological differences. Additionally, *détente* was characterized by a delicate balance of power and trust, which could be easily disrupted by events like the Soviet invasion of Czechoslovakia in 1968. 3.
